For Immediate Release

IWSsales, Inc. presents the Ultimate Energy Saver Night Light which eliminates the use of power consuming light bulbs.

Now the IWS NO-LIGHT-BULB Night Light can be used in a variety of applications where there is a need for a 24/7 light and no desire to waste energy.

San Francisco, California – 2004: IWSsales, Inc., the innovator and developer of a custom night light deploys the state of the art conventional **no light bulb** solution to allow the consumers to have 24/7 light source.

The high performance conventional night light is designed and manufactured by IWSsales, Inc. and built by using LED (Light Emitting Diode). The solution offers light source where needed around the clock 24/7 and offers noticeable energy saving. No more watts of electricity usage per traditional night lights, consider using energy in the level of mini amperes.

The product comes in color of choice where it can be purchased with white, red, blue, green and amber LED light sources. It is an ideal soft light source where needed on the night light table in **your bed room** or your **baby's bed room**, at the **restaurants, bars** and other applications that need a soft light all around the night without wasting any energy. It also comes in with the battery version and as a votive candle burner. Yet, they look alike just like a triplet.

IWSsales delivers value added and revolutionized total solutions to its clients by custom designing, marketing, and manufacturing high-performance and cost-effective products such as: Night Lights, Candles, Candle Holders, Gift Bags, Toys and other product to meet the market demand. IWSsales is headquartered in San Jose, California having the permanent show room in San Francisco Gift Center, and has the operations team stationed in the China. The company is privately held.
